

Jack High

A game that tests player's special awareness, aim, and judgement of distances. The game is a team activity in which pupils can take on a variety of roles such as umpire, player.

Try to encourage teamwork and communication!!

Using one third of the netball court split the players into 2 teams(you could maybe use two pitches) Each team stands at opposite ends of the court behind the boundary line

Team 1

Small Ball

Large foam ball

Team 2

The aim of the game is to knock the ball across the opposing teams boundary line using the smaller balls or beanbags. If the other teams ball rolls into your area you may use it.

Players can roll or throw the ball

Can be played sitting or standing

Make the area Smaller/Larger/Wider/Narrower

Could develop into a passing game having some players standing/sitting closer to the ball

Encourage the player to play in pairs with one collecting and one throwing/rolling, swap roles.
